ABOUT ME

UX/UI Designer with a Master of Design (MDes) from Unitedworld Institute of Design (UID), specialising in user-centred design, conversational AI interfaces, and scalable design systems. Skilled across the full UX process — user research, information architecture, wireframing, high-fidelity prototyping, and usability testing — with hands-on experience designing AI-native product experiences using Figma and Adobe Creative Suite. Delivered 4 end-to-end mobile product design projects across AI, child-centred learning, and productivity domains. Eager to contribute to a global UX team, grow within a structured design ecosystem, and craft digital experiences that have real-world impact.

EDUCATION

2023 – 2025

Master of Design (MDes) – Visual Experiential Design
Unitedworld Institute of Design (UID) · Gandhinagar

2010 – 2014

Bachelor of Technology (BTech) – Information Technology
Hindusthan College of Engineering and Technology · Coimbatore

EXPERIENCE

Apr 2025 – Present

Hapiwelkin Creative Institute · Chennai

Visual Experiential Designer

- Delivered user-centered design solutions across digital and physical touchpoints, grounding each project in user research and stakeholder-aligned business goals.
- Built and maintained design systems with reusable component libraries in Figma, enabling consistent multi-platform delivery
- Applied visual hierarchy, typography systems for my designing

May 2024 – Aug 2024

Unada Labs Pvt. Ltd · Ahmedabad

Graphic Designer

- Designed mobile-first digital assets and branding systems in Figma and Adobe Creative Suite, translating client requirements into multi-platform visual components.
- Produced responsive design assets optimized for web, mobile, and social platforms, maintaining pixel-perfect execution and brand consistency across all outputs.
- Adapted visual designs for web, mobile, and print, ensuring layout, typography, and colour systems remained coherent across mediums.

Nov 2020 – Jun 2021

Emerging IT Solution · Coimbatore

Designer

- Designed information-rich presentation decks and communication materials, applying visual hierarchy and UX principles to improve clarity and audience engagement.
- Partnered with stakeholders to translate complex business narratives into structured, accessible visual formats — an early foundation in information architecture.

Jan 2018 – Nov 2018

ENA Game Studio · Chennai

Artist

- Created background environment designs and character assets for game projects, collaborating with game designers to align visual mood, perspective, and world-building style.

Sep 2014 – May 2015

HCL Technologies · Chennai

Analyst

- Supported cross-functional analytics teams in an enterprise tech environment, developing early exposure to complex user workflows, process documentation, and system performance evaluation.

SKILLS

UI	Wireframing · High-Fidelity Prototyping · Interaction Design · Visual Design · Design Systems Component Libraries · Responsive Design · Mobile-first Design · Accessibility (WCAG 2.1) · Typography
UX	User Research · Empathy Mapping · Personas · Journey Mapping · Information Architecture · User Flows · Usability Testing · Heuristic Evaluation · Design Thinking
AI & AGENTIC	AI UX Design · Agentic Workflow Design · Conversational UI · Human-in-the-loop Design · LLM Interface Design · AI Personalisation
TOOLS	Figma · Adobe XD · Miro / FigJam · Adobe Creative Suite · Notion · Gumloop · Flowise · RelumeAI · v0 · Google Stitch · Vibe Coding

PROJECTS

EmoMate – AI-Powered Emotional Learning Toy

- Designed end-to-end UX for an AI-native mobile app, designing conversational UI patterns and agentic workflow flows that personalize emotional feedback for children in real time.
- Conducted user research on children's emotional intelligence (EQ), identifying gaps in traditional learning methods through interviews and empathy mapping.
- Designed features including interchangeable facial expressions, voice interaction, and AI-based personalization to track emotional patterns — applying human-in-the-loop design principles
- Created a connected companion app for parents and educators with dashboards for monitoring children's development progress..

Kiddo App – Parenting Activity Platform

- Conducted user research (interviews, empathy maps, personas, journey maps) to identify key pain points among busy parents managing child engagement.
- Designed end-to-end user flows and information architecture in Figma, then produced low-fidelity wireframes through high-fidelity interactive prototypes across 3 rounds of iteration.
- Designed an AI-powered craft assistant feature using conversational UI patterns to suggest activities based on available materials.
- Developed a community activity-sharing feature; iterated designs based on usability testing feedback to improve user flow clarity.

Grocery Mate – Smart Shopping Mobile App

- Designed a user-friendly grocery management app — from user research and wireframing through to high-fidelity responsive UI in Figma.
- Identified pain points (overbuying, forgotten items, food waste) through user research; applied design thinking to define problem statements and 'How Might We' opportunities.
- Delivered features including smart suggestions, low-stock reminders, and purchase tracking with mobile-first, accessible interaction design.

KidsMate – Interactive Learning App for Children

- Conducted UX research with teachers and parents of children (Grades 1–5) to understand engagement barriers, mapping findings into actionable information architecture.
- Designed a safe, personalised learning platform with activity-based experiences, applying user-centered design to improve usability and engagement across teacher and parent personas.

CERTIFICATIONS & ACTIVITIES

Web Designing	Manchester Community College
Advanced Java	Mazanet Solution
AI in UX Fundamentals	Masai
Volunteer - Seminars	UID
Guest speaker – FM Radio
